Mr. David L. Munson
FineArtLight LLC
1236 Wood Station Place
Manchester, MO 63021

Dear Mr. Munson:

I am writing to commend you on a job most professionally and excellently done in every aspect of the custom light you created for our Edo period fushima doors. Your light illuminates the entire artwork, some 12' x 5', beautifully; and the fixture itself is clearly made to the highest standard of quality. Dealing with you has been a pleasure as you have been both responsive to our questions and proactive to make sure the project was a success at every step.

It is worth noting that you are the positive exception in the world of custom art lighting. I previously ordered a light for this artwork from Hogarth Lighting of the UK. Not only was it a painful process to get their light and all required pieces delivered, it failed to perform as promised: light coloration casting a pink hue (despite having paid for color temperature control); after one week the light ceased working all together. Once Hogarth received my payment, they refused to respond to numerous phone calls and emails asking for help.

We were most fortunate to eventually find you. Thanks for the splendid work! Feel free to share my comments with others.

Sincerely,

FineArtLight 11 foot Masterpiece Series
