No-More-Frame-Wires™

Patent Pending

Adjustable Frame Hanger

Mount on each side of frame about 25% down from the top.

Start by attaching to frame and then rotate 90 and use the side of the hanger as a marker on the wall by holding the painting up to its location and rubbing hanger edge on wall. Once the positions are marked on the wall, attach proper wall fasteners. (not a nail) If the frame is uneven then adjust the height by rotating the hanger.

Recommended Wall Hangers
